## **OPEN AN APPEAL IPO "WORLD COSSACK FIGHT FEDERATION" TO EUROPEAN AND WORLD LEADERS AND ORGANIZATIONS**

The Ukrainian State and the entire Ukrainian people are severely and fatally suffering from the Russian aggressor-terrorist during the Ukraine-Russia war, which began in 2014 with the seizure of the sovereign territories of Ukraine: the Autonomous Republic of Crimea, Donetsk, Luhansk regions, and acquired signs of the full-scale destruction of the Ukrainian nation and of Ukraine as such February 24, 2022

Social and humanitarian assistance to Ukrainians who, as a result of the war, found themselves in a difficult situation and were forced to leave their homes, is provided for the purpose of preserving national cultural, ethnic, and customary traditions of life and construction, and for the purpose of integration into the life of the community abroad.

In order to support the physical and moral condition of Ukrainians abroad, the **IPO "WORLD COSSACK FIGHT FEDERATION"** opens the **"UA-DO"** martial arts school in the cities where Ukrainians live compactly.

**"UA-DO"** is a modern applied sports practice aimed at supporting and developing a person's physical and spiritual strength. The practice is based on traditional, ancient exercises of **"COSSACK CHARACTERISTICS"** and the National Martial Art **"COSSACK FIGHT"**. The training system also includes basic elements of the martial arts of Asia, China, Tibet, North America, and Africa.

Physical, breathing, and game exercises have a conceptual finished form of the new school - **"UA-DO"**, which is an original system of **"KNOWLEDGE"** with elements of self-defense and avoiding harm, and methods of training children and adults to protect themselves and others.

In addition to practical application, **"UA-DO"** has a cultural, educational and humanitarian component, and is implemented to protect and support the Ukrainian ethnic group, consolidate pro-Ukrainian forces abroad, and create a positive image of a true

"Ukrainian patriot", which, regardless of location, with all his actions and initiatives brings victory over the invaders of the Ukrainian land and the enemies of the Ukrainian nation closer.

The nature of relations in the "UA-DO" community is fraternal. The attitude towards masters is respectful. There are no age or gender restrictions for entering school and starting classes. Only love and respect for **UKRAINE** are mandatory.

We appeal to all friends, state, volunteers, donors, and humanitarian partners abroad with a request to support the opening and development of "UA-DO" school branches in your city, canton, district, community, and community, for the implementation of an "extremely important cause".

With respect and gratitude,

President of the IPO "WORLD COSSACK  
**FIGHT** FEDERATION"

Volodymyr MOSHKOVSKY
